

**HunterNet™**

Hunters online 'cloud' database, leads the way to compete customer service and work management. With this network facility you can now fully manage your alignment services, enabling access to all your sites Hunter alignment and Quick Inspection data along with statistics and reports at any time, any place, anywhere.

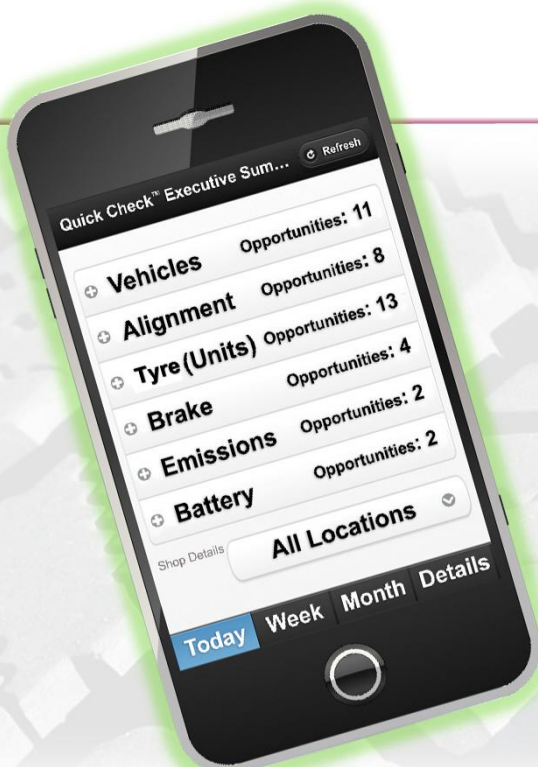

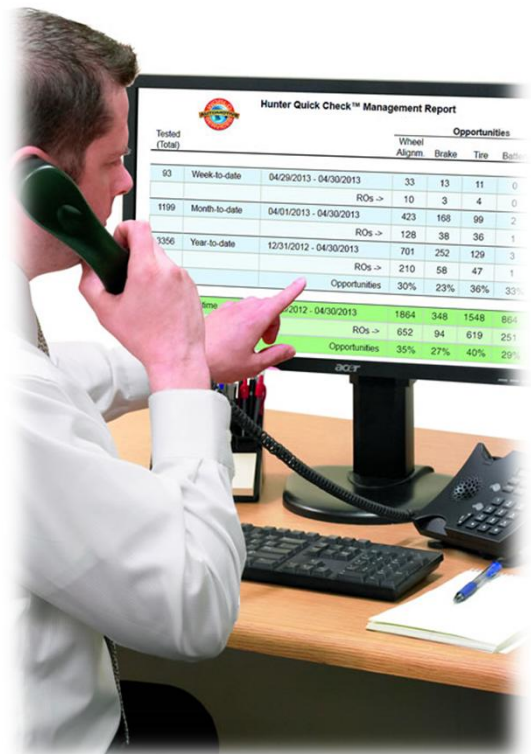

**Features**

**WebSpecs** - Access instantly the very latest vehicle alignment data and vehicle specification when you and your workshop need them.

**HunterNet for Reception** - Help your customers make an informed 'work authorisation' decision with transparent visual on-screen alignment results, and supportive informational video and photos.

**ShopResults** - Email alignment results rapidly to your customers or business partners e.g. Insurance/Warranty in an easy to understand format to PC, smartphone or tablet.

**Work Management** - Always have the performance, analysis and activity of your Hunter alignment and Quick inspection bays (incl. multiple sites) there at the click of a button.
