

Liftalign - Scissor

The Liftalign range of alignment lifts are manufactured in one of Europe's largest facilities with high investment in robotic automation and quality control. A Scissor lift is ideal for where the bay size is limited (in width) or a sleeker look is required.

Specifications

Scissor lifts	Liftline 6402	Liftline 6502
Capacity	4200kg	5000kg
Platform Length	4600mm	5500mm

Features

- Right or left hand control box for ease and speed of operation
- Front turnplate recess and integral slip plates with roller ball bearings (*Turnplates supplied with Hunter aligner*)
- Moveable infill kit to accommodate different vehicle wheelbases
- Air locking rear slip plates from the control box

Options available:

- Play detector
- Jacking Beam
