

easi iHeat™

Our range of induction heaters are the perfect easi iHeat tool for any workshop, making light work of straightening, bending and freeing off operations. Delivering rapid and safe heat with finger point accuracy where it really counts!

Fast - Takes just seconds to heat ferrous based metals.

Economical - A value price but greater performance, costs saving - up to 50% compared to gas and cheaper cost of ownership.

Ease of Use - Plug in, switch on operate, mobile units, long cable ensures access to all components. Finger point accuracy allowing close proximity to heat sensitive parts and water cooled for longer usage times.

Safe - Flameless solution - No naked flame or excessive heat. Isolating transformers. Audible signal denotes when in use. Rigorously tested and conforms fully to European Standard and certification.
